Summary

<https://github.com/tenxrs/learner-ms>

I am a highly motivated web developer with 3 years of hands-on experience in creating robust and user-friendly web applications. My expertise lies in leveraging a range of technologies, including React, JavaScript, TypeScript, HTML, and CSS, to deliver exceptional digital experiences. I am proficient in utilising tools like Tailwind CSS and Git for efficient development and version control.

Key Skills :

- Skills : Javascript | ReactJs | Html | Css | Tailwindcss | Bootstrap | Version Control.
- Front-End Development: Proficient in building responsive and interactive web applications using HTML, CSS, and JavaScript.
- React: Extensive experience in developing dynamic and feature-rich web applications using React, ensuring a seamless user experience.
- JavaScript: Skilled in using JavaScript to enhance code quality, maintainability, and scalability.
- UI/UX Design: Strong focus on creating visually appealing and intuitive user interfaces for maximum user engagement.
- Tailwind CSS: Proficient in utilising Tailwind CSS to streamline UI development and ensure a consistent design system.
- Version Control: Experienced in Git and version control systems for collaborative development and code management.
